DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Katrina Lyons on October 5, 2007.

The application has been amended as follows:

- Replace claim 12 to recite, "A computer-readable medium having an encoded computer program that is encoded with computer executable instructions to perform the process recited in claim 9."
- Replace the preamble of claims 13 and 19 to read "A computer-readable medium encoded with computer executable instructions for use in detecting when a person in a synchronized audio video clip is speaking, said computer executable instructions comprising:"
- Replace lines 4-6 of claim 20 to read "a computer readable medium encoded with instructions capable of being executed by a computing device, wherein the computing device is directed by the program modules of the computer program to,"

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 13, 19-20, 24 and 28, they recite a process for detecting when a person in a synchronized audio video clip is speaking. Prior art such as Maali and Stork discloses a similar process, but does not specifically teach computing audio features from said audio training data wherein said *audio feature is the energy over an audio frame*, to obtain simple and useful computations, as it is only one dimensional. This enhances the performance of the speaker detection system and method.

Dependent claims 2-12, 14-18, 21-23, 25-27 and 31-32 are allowed because they further limit their parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
